

perXmicro

il microcredito in italia

MISSION

“We create employment and social inclusion through professional disbursement of credits and microcredits, financial education and services for starting-up and supporting enterprises, with the aim of reaching the complete sustainability of our activity.

We address to professional people with a good entrepreneurial idea and to people with primary financial needs (home, health, education), who are excluded from traditional credit channels because of insufficient credit history or precarious working position.”

In Italy, after a long journey, the legislator has come to the following definition of microcredit:

«Financing with the following characteristics: maximum amount of 75,000 euros; not backed by collateral; accompanied by auxiliary assistance and monitoring services. “

Definition pursuant to art. 111 of the Consolidated Law on Banking (with revision of Law no. 234 of December 30, 2021, Budget Law 2022):

- *Companies already registered for VAT for no more than 5 years*
- *Professionals and individual companies with up to 5 employees;*
- *Partnerships, SRL, simplified SRL, cooperatives with non-member employees up to 10 units;*

PerMicro is a financial intermediary pursuant to art. 106 supervised by the Bank of Italy: it provides both microcredits and credits on a daily basis to promote financial inclusion in Italy.

MICROCREDIT

DEFINITION

Microcredit is a financial instrument aimed at those who cannot access traditional credit due to lack of collateral or insufficient credit history.

This tool offers vulnerable individuals at risk of marginalization a valid opportunity for financial and social inclusion.

#PERMICROCUSTOMERS

Fabio was born and grew up with a strong passion and sensitivity towards animals in Giurdignano, a country village in the province of Lecce. His parents with many sacrifices allowed him to realize his greatest dream, namely to graduate from the University of Bari in Veterinary Medicine in 2017.

Registered in the professional register of Veterinarians of Lecce since 2017, in February 2018 he opened his VAT number, starting to carry out home visits and interventions at authorized colleagues' laboratories. Not having an important financial support from the family, in March 2019 - PerMicro granted him the economic availability and above all the confidence to finally open his private veterinary practice in his village of origin.

Nassira is 35 years old and is originally from Mali. In Italy since 2005, since 2014 she has been hired in the role of cultural mediator by a Social Cooperative in Florence, in which she still works and of which she has become a partner.

Nassira lives alone with her three children in Prato: during the day she works and in the evening she attends a night school to obtain a high school diploma. Nassira requested a loan from PerMicro precisely to be able to keep up with all the movements she has to make every day: she has in fact bought a car that allows her to take her children to school in the morning, go to work in Florence, recover the children on leaving school and finally reaching her evening classes.

CERTIFICATIONS

In April and May 2020 PerMicro had a due diligence by MicroFinanza Rating aimed at confirming the requirements for maintaining the **Code of Good Conduct for Microcredit provision certificate**, valid for obtaining European funding.

The Microfinance Rating evaluation, validated by the European Commission's steering group, was based on the analysis of **PerMicro's compliance with 167 applicable clauses**. From the examination of the auditors, **PerMicro is compliant for 158 of them, equal to 94% of the total, recording an increase compared to the 92% recorded in the first assessment of 2017.**

The improvement is even greater if we consider that the examination was conducted **considering PerMicro a "large" (and no longer medium) institution**, with the inclusion of a dozen additional clauses, typical of more structured companies.

NETWORKS

PerMicro is founder member of **RITMI**, Rete Italiana della Microfinanza, whose main activity is the promotion of microfinance and microcredit in Italy. Its goal is reaching social inclusion for underserved and financial excluded people.

PerMicro is member of **EMN**, European Microfinance Network, which works for promoting microfinance tools against unemployment and social and financial exclusion.

In November 2021 PerMicro signed a memorandum of understanding with the Italian **Ente Nazionale per il Microcredito**. The Protocol has as its object the promotion of financial education, business culture and the social and financial inclusion of the most vulnerable in society.

PARTNERS

PerMicro collaborates with some of the most important financial companies in Italy: through this partnership, we are able to reach the entire national territory and allow access to credit to subjects excluded from traditional channels.
